Long pink variety

Good to eat - pl. them

5/28

Raf and I took a rather rapid trip to Otavalo from Quito via velotaxi. Only 2 hours! the driver was nice. off my car was rear a guy people in site he always looked at him. ~~From~~ Cagande was ^{cloud} fogged in so we could not see the mt. From Otavalo we took a taxi (so sweet for 2+ years) to Cotacachi where we met the people from the ministerio de Agricultura.

The main man, a humorist sort, proved to be most accommodating. We also were provided with 2 flashies. One is an exact replicate of Homer Pyle. In Ecuador yet!

After a trip back to Otavalo to ~~load~~ load (120 pieces of load) we headed out fully loaded in a 4x4 Nissan Patrol.

We passed first through the fertile inter andean valleys then entered dry scrub. After turning off on a narrow dirt road we travelled in scrub with much opuntia (2nd ripe tomatoes) which ripen off are in all on hands.

after several hours of up and down and across dry we began to break through the

at. chain into mountain country at dark/cool.
@ 900 m. Arrived here on time of confused driving ended
70° at 6:30 in at ^{Guillabí, d. La Cabaña} Guayabe for the night. No (all 5)
cloudy slept under the porch of the school and waited
2 hours for our pickup to come.

5/29
Friday

Started the morning early since school
began at 7:00 and we had to leave.
We managed to buy 3 p.p.s. for \$5 more.
Drove and drove. we began to enter
more forested slopes although the valley
was all settled. Crossed ~~some~~ several plank
bridges and had to load many shallow
streams. Finally must be working dry for
at several of the crossings we drove
through streams where water were working
on the rocks.

Before noon we stopped at the Minister's
stolen hut outside of Lirio. Here we found
the dead man very accidentally. He arranged
for us to go into Lirio where we planned
to eat in a cafe - no luck. Cafe
required 1 day advance order to eat
We did have a coke - with chicken
2 days on the massive spotted concrete floor

Lirio
Cafe
Treated
Slept
Eats
Satisfied

Walls were papered - with old newspapers.
All look awake & on guard. We had
cakes here - while eating we walked
two soldiers with machine guns.

Slept at the home of the Monasteries
(where soldiers slept with machine guns
little log w/ slingshot - very accurate

Vista R.K. station at Vista
what a pit! There saw a solanum sp.
with large prickly leaves.

Orange fruit w/ 5 retrose pointers
at end.

Made arrangements with the chief
of police for 5 people to guide us
into forest.

5/30 Saturday

Arose early - no luck in getting
people to go with us so hiked on
there.

Cooked breakfast in loft of
~~house~~ shed where road was being
weighed. Took series of pictures
showing whole process.

Drove down new road towards
Mani. where road ended

let us
3 people with horse go on a
ride into town on the trail
my horse had a mind of its own
(it also didn't have reins)
and chose its own path on the
very red muddy trail.

At one place it slipped and almost
fell over the back of me about the
burly bag saddle.

In Mani we were treated like
kings. A fiesta was in progress
and the school kids were playing
games - Cito - all in
white & blue uniforms.

was given free beer (twice)
& arranged for 3 people to
guide me into montane.

Watched a pentester soccer
game. René one of our guides
is very good (30 years old too!)

Woke up back to jeep.
Pitched tent in cow pasture
and took a sponge bath in pasture
(very fine place).

Sun June 1

Collection 5017-5021

Arne & packed ~~early~~^{early} - they waited -
waited. They arrived late since
the fiesta ended in a big drunk.

Our guides are like hore -
very strong. The first hore
was on a very rough steep trail!
I hurt - tired - no breath.

Took a break and drank the beer
from a cow pasture stream.

Next few hore were in a
dense native forest - gorgeous!
Met 2 *Primeros* (*Cabazonos*)

Indians carrying large loads of
plantains which they offered here to us.
Collected ~~plantain~~ *Peltophorus* a lot!
walked by several Indian huts
(open palm thatched or stone).
Indians very shy!

All forest except for a few
Indian clearings.

Walked until 3:30 ~~4:00~~ :00

Saw many
mammal tracks
peacock
+ trigger

Arrived at hut of Rene René
our guide. A few *Halcyon*
+ *Catantop*.

Next morning the 3 Murestian people
& I guide west back.

The stupid people took all the
rice, salt, most of the tinned
corns and more - what did they
expect us to eat.

Walked for hours in the forest
looking for honeybees - saw a few
collected many plants - saw fresh
deer & Puma tracks

Crossed numerous streams on
1 log (many are very narrow) bridges.
a waded & hopped from rock to
rock. - got very wet

Saw several Ericoid hummer plants along
1 stream (collected)

It rained hard in late afternoon
G-vader tried to shoot several
monkeys but missed - they (monkeys) are
cute but quite small.

June 2 collection #5022-5039
June 3 collection #5040-5041
June 4 #5042-5058

July 15.

Left Quito at 12.15 with the Danish people going Ben Ollgaard, Susan & John. John & I sat back in the back of the pickup truck we had hired. Very cool ride. There was canvas plastic over the top but the wind came in between. We were able to sleep for 1 hour though.

Last part of ride from Ambato was very scenic although the road was rough. In town (Baños) where we stopped two monkeys were chained up along the street on poles.

At 6.30 arrived in Puyo. A very lively town with much activity. Shopped for pots to cook with. Ate in restaurant. 4 people plus beer for very cheap.

Tried to find Mel Schomlek but no luck. Stayed at Hotel Europa where 3 species of parrots were caged in the restaurant. Poor birds.

July 16.

Ate in hotel - next to airport & Shell and waited from 8:30 - 2:00 for a flight to Montalvo. plane appeared to be German
